

Effingham-Clay Service Company Structures Department is committed to serving patrons in our 7 county trade territory

We offer a wide range of products and services, which includes grain systems, livestock equipment, garage doors, garage door openers, dock equipment, and Country Clipper lawnmowers, with an excellent service team to provide support to our product line.

Ken Meinhart is our Structures Department Manager and he is responsible for the day-to-day sales and operations of our Structures Department.

Adam Niemerg assists Ken in day-to-day activities and also leads the scheduling of our Energy Service Department. Our service team consists of Jeff Swinger, Seth Walk, Jeff Ruhoff and Randy Wendt.

We handle a wide array of grain bin equipment including Sukup, GSI, Brock, Shivvers, Hutchinson, and NECO. We install new grain systems and upgrade existing grain systems.

We sell and install a full line of

Raynor Garage Doors and Liftmaster operators. From residential to commercial, no job is too big or too small. We have recently added dock leveling equipment and door seals to our overhead door line of equipment.

The pictures in this article are taken of some of the installations this team has been working on in the past couple of years. Also, pictured are the four service trucks equipped to service customer needs.

NO JOB IS TOO BIG FOR OUR TEAM.
